

**COOPERATIVE EDUCATION PROPOSAL FORM**

Cooperative Education provides individual students with one or multiple periods of work that is related to the student’s major or career goal. Approved Cooperative Education does earn academic credit and generally, all positions are paid. The typical program allows for students to alternate terms of full-time classroom study with terms of full-time, discipline-related employment. Program participation may involve multiple work terms, therefore participants may work three or four work terms, thus gaining a year or more of career-related work experience before graduation.

- Students must complete a proposal form and obtain signatures of approval BEFORE registering for the Cooperative Education course 389. At the department’s discretion, students may use this form or a departmental form that is modeled after this form.
- The student should have a specific proposal in mind when requesting to work with in a Cooperative Education program. The faculty member and student work together to develop the parameters of the Cooperative Education including a syllabus, course outline, units, and student/faculty contact hours.
- Students should enroll in the Cooperative Education course within the first two weeks of the Fall and Spring Semesters or immediately after the beginning of Winter or Summer Sessions. Deadlines for enrollment in Cooperative Education are the same as for all other courses.
- Return the form to the main office of the academic unit administering the Cooperative Education course. This form is for the academic unit’s records and is used to establish the criteria of the Cooperative Education.
